- Spanish

WORK EXPERIENCE:

APPLICATION SOFTWARE DEVELOPER

Centene Corporation | August 2019 - Present

- Developing web applications with Angular and TypeScript
- Setting up APIs using Golang and MongoDB
- Creating and scaling containers with Docker and Kubernetes
- Adding unit tests, integration tests, and load tests to our apps
- Implementing effective CI/CD across environments with Jenkins
- Enforcing SLIs and SLOs, and monitoring the health and outcomes of our services using Prometheus and Grafana
- Supporting the Agile development cycle by knowledge-sharing, efficient time management, and continuous learning

IT INTERN

Centene Corporation | May 2018 - May 2019

- Created and Developed REST APIs using Golang
- Worked on delivering mobile friendly content in Angular apps
- Used non-relational databases with cloud native apps
- Learned to work within an agile environment
- Attended SSG Security bootcamp where I learned about application security and input validation

RESEARCH ASSISTANT

Lindenwood University | July 2018 - May 2019

- Worked on adding/removing content on the Android app used by the school of education for research on early stages of Autism
- Created landing web page for the Android application
- Created terms of use, privacy policies, and disclaimers
- Distributed application to users and troubleshooted issues

EDUCATIONAL HISTORY:

LINDENWOOD UNIVERSITY

Computer Science B.S & Mathematics B.A

SUMMA CUM LAUDE & UNIVERSITY HONORS | 4.0 GPA

- Computer Science Club President
- Founding father of the Mathematics Club
- Member of Alpha Chi Honor Society-Pi Chapter, Environmental Conservation Organization, Lindenwood University Honors Society, International Student Fellowship, French Club
